After receiving feedback from our customers and derby participants, we have decided to make a few changes to our future derbies in an attempt to preserve the fish population and to be more environmentally responsible. These changes will include:

The derby will be "live release". Keeping those large fish in the lake is very important to maintain a good healthy breeding stock. Details of this change will be provided when participants register for the 2010 Derby.

Participants will no longer be notified by regular mail of the derby results. Instead, the results will be posted on our website. Of course, the winners will still receive their prizes in the mail.

Thank you for participating in Rideau Breeze Marina's 2009 Derby.

We look forward to seeing you in 2010!
